SUMMARY

UI/UX Designer and Front-End Developer with hands-on experience designing responsive web and mobile interfaces using Figma, HTML, CSS, and JavaScript. Passionate about creating intuitive user experiences through design systems, prototyping, and modern frontend development. Currently building real-world projects and continuously improving through internships and hackathons.

Work Experience

UI/UX Design Intern

Memolane (Neo Labs) | Apr 2026 – July 2026

- Designing UI and improving UX for a journaling-based product
- Creating wireframes and layouts using Figma
- Collaborating on design decisions and product experience

Education

B.Tech – Computer Science (AI & ML) 2023 – Present

Lamrin Tech Skills University, Punjab

Intermediate (Science)

2023

Patna Convent, Patna

Matriculation

2021

St. Karen's Secondary School, Patna

Skills

UI/UX Design

Figma (Auto Layout, Components, Prototyping)
Wireframing, Design Systems

Frontend Development

HTML, CSS, JavaScript
DOM Manipulation, REST APIs
Responsive Layouts, UI Logic

Core

Problem Solving, Critical Thinking
Design Thinking, Communication
Team Collaboration

AI/ML & Robotics

Machine Learning (Basics), Data
Handling, ROS2, PID Control, Gazebo
Simulation

Tools

Figma, Framer, GitHub
Netlify, VS Code
Canva

Projects

Personal Portfolio Website (Design + Development)

Tech: Figma, HTML, CSS, JavaScript
Formspree, Netlify, GitHub Pages

- Designed and developed a responsive portfolio from scratch with clean, responsive UI and structured layout
- Implemented interactive components and functional contact form (Formspree)
- Deployed on Netlify and GitHub Pages with optimized structure

30 Days JavaScript Project Collection *(In Progress)*

Tech: HTML, CSS, JavaScript, GitHub Pages

- Building and deploying 30+ interactive projects using GitHub Pages
- Creating a centralized website to showcase all projects
- Strengthening DOM manipulation, API integration, and reusable UI components

OTHER PROJECTS

- Dynamic Price Analyzer (AI/ML – Team Lead) — ML-based price trend analysis
- Drone Stabilization (ROS2, Gazebo) — PID-based drone control system
- Student Course Enrollment (UI/UX) — user flow and dashboard design
- Employee Leave Management (UI/UX) — workflow-based system interface
- Weather App UI — real-time data-focused interface design
- Drone Landing Page — modern UI with strong visual hierarchy
- Business Website UI — structured layout with usability focus
- UltraEdit Clone — responsive layout recreation
- Netflix Clone — modern UI styling

Achievements

- Participant – E-Yantra Robotics Competition (IIT Bombay)
- Active participation in hackathons and team-based projects
