

SAURABH SINGH

UI/UX Designer & Frontend Developer

Patna, Bihar, India

[LinkedIn](#) | [GitHub](#) | [Figma](#) | [Portfolio](#) | [Mail](#) | [Phone](#)

SUMMARY

UI/UX Designer and Frontend Developer with 40+ UI screens designed across 15+ completed projects. Experience spans SaaS dashboards, business websites, and product landing pages, combining Figma-based design work with hands-on HTML/CSS/JS implementation. Practical product experience gained through a UI/UX design internship and independent client-style projects.

WORK EXPERIENCE

UI/UX Design Intern | Memolane (Neo Labs) | Apr 2026 – July 2026

- Designed and refined interfaces for a journaling-based product, contributing wireframes, prototypes, and high-fidelity screens from concept through final handoff
- Maintained visual consistency across the interface by establishing reusable UI patterns, improving usability for end users
- Collaborated directly with developers and product stakeholders, contributing to UX decisions in team design discussions

PROJECTS

AI-Powered Amazon Creative SaaS — *UI/UX Design*

Designed a complete SaaS interface concept for an AI platform that helps Amazon sellers generate product creatives. Structured multi-step AI workflows into clear, scalable navigation and dashboards, translating a complex backend process into a simple user-facing experience.

Employee Leave Management System — *UI/UX Design*

Designed a dashboard for managing employee leave requests, records, and admin workflows. Built structured, consistent UI patterns across multiple interconnected screens to reduce navigation friction for HR admins and employees.

Personal Portfolio Website — *UI/UX & Frontend Development*

Designed and built a responsive personal portfolio from scratch, including a functional contact form (Formspree) and deployment pipeline (Netlify). Focused on clean visual hierarchy and interactive components across breakpoints.

Student Course Enrollment App — *UI/UX Design*

Designed a course enrollment application focused on simplifying student registration, course selection, enrollment tracking, and dashboard navigation through clear, intuitive user flows.

Rajratan Business Website — *UI/UX Design*

Designed a professional business website in Figma using structured wireframes and planned content sections, focused on visual hierarchy, typography, and a polished, user-friendly presentation.

Drone Stabilization Using PID Control — *Robotics*

Implemented PID control logic to stabilize drone flight in a ROS2/Gazebo simulation. Tuned control parameters iteratively to reduce oscillation and improve stability, gaining hands-on experience with simulation-based testing.

SKILLS

UI/UX Design: Figma, Wireframing, Prototyping, Design Systems, Visual Hierarchy, Usability Principles

Frontend Development: HTML, CSS, JavaScript, DOM Manipulation, REST APIs, Responsive Design, Git

Tools: Figma, Framer, GitHub, Netlify, VS Code, Canva

Core: Problem Solving, Design Thinking, Communication, Team Collaboration

AI/ML & Robotics: Machine Learning Fundamentals, ROS2, PID Control, Gazebo Simulation

EDUCATION

B.Tech – Computer Science (AI & ML) | Lamrin Tech Skills University, Punjab | 2023 – Present

Intermediate (Science) | Patna Convent, Patna | 2023

Matriculation | St. Karen's Secondary School, Patna | 2021
